

Stainless Steel Small Pet Scale KERN FOB-NS · FOB-NL

KERN FOB-NS

KERN FOB-NL

Compact stainless steel small pet scales with high-level protection against dust and water splashes

Features

- Thanks to the stainless steel design of the housing and platform with smooth surface, the scale is rust-free and easy to clean
- High mobility: thanks to compact, flat construction, it is suitable for use in several locations, secure and non-slip positioning through rubber feet
- Protective working cover included with delivery

KERN FOB-NS

- Particularly flat design
- **1** Protection against dust and water splashes IP65 (only when using battery)

KERN FOB-NL

- **1** FOB 3K-4NL: Protection against dust and water splashes IP65 (only when using battery)
- **2** Protection against dust and water splashes IP67 (only when using battery)

Technical data

FOB 7K-4NL, FOB 10K-3NL, FOB 30K-3NL

- With multi-division balances, the weighing range is divided into several sections, each with a different readout. The readout changes automatically with the increasing or decreasing load, depending on the load applied. I.e. if the value goes below or above the limit values, the readout adjusts automatically. One advantage of multi-division balances is that when the load decreases, the balance switches to a finer resolution without having to remove all the load from the balance. Another advantage of multi-division balances is that by taring off, it is possible to switch from a coarse resolution to a finer one. To all intents and purposes, the user has several balances in one

Accessories

KERN FOB-NS

- Protective working cover, scope of delivery 5 items, KERN FOB-A12S05
- External mains adapter, KERN YKA-46

KERN FOB-NL

- Protective working cover, scope of delivery 5 items, KERN FOB-A13S05
- External mains adapter, KERN YKA-29

STANDARD

OPTION

KERN	FOB 0.5K-4NS	FOB 5K-3NS	FOB 3K-4NL	FOB 7K-4NL	FOB 10K-3NL	FOB 30K-3NL
Weighing capacity [Max] kg	0,5	5	3	5   7,5	8   15	16   30
Readability [d] g	0,1	1	0,2	0,5   1	1   2	2   5
LCD-display – digit height	20 mm, without backlight		25 mm, without backlight		25 mm, wih backlight	
Weighing plate W×D mm	120×150		248×198		252×200	
Overall dimensions W×D×H mm	150×170×40		295×260×95		285×255×90	
Power supply	Batteries included, 9 V block, operating time up to 20 h			Batteries included, 4×1.5 V AA, operating time up to 48 h		
Net weight approx. kg	0,80			3,8		
Permissible ambient temperature	10 °C – 35 °C	10 °C – 40 °C		5 °C – 35 °C		

	<b>Adjusting program CAL</b> For quick setting up of the balance's accuracy. External adjusting weight required
	<b>Memory</b> Balance memory capacity, e.g. for article data, weighing data, tare weights, PLU etc.
	<b>Data interface RS-232</b> To connect the balance to a printer, PC or network
	<b>RS-485 data interface</b> To connect the balance to a printer, PC or other peripherals. Suitable for data transfer over large distances. Network in bus topology is possible
	<b>USB data interface</b> To connect the balance to a printer, PC or other peripherals
	<b>Bluetooth* data interface</b> To transfer data from the balance to a printer, PC or other peripherals
	<b>WIFI data interface</b> To transfer data from the balance to a printer, PC or other peripherals
	<b>Control outputs (optocoupler, digital I/O)</b> To connect relays, signal lamps, valves, etc.
	<b>Statistics</b> Using the saved values, the device calculates statistical data, such as average value, standard deviation etc.
	<b>PC Software</b> to transfer the measurements from the device to a PC
	<b>GLP/ISO log internal</b> The balance displays weight, date and time, independent
	<b>GLP/ISO log</b> With date and time. Only with KERN printers

	<b>KERN Communication Protocol (KCP)</b> It is a standardized interface command set for KERN balances and other instruments, which allows retrieving and controlling all relevant parameters and functions of the device. KERN devices featuring KCP are thus easily integrated with computers, industrial controllers and other digital systems
	<b>Piece counting</b> Reference quantities selectable. Display can be switched from piece to weight
	<b>Totalising level A</b> The weights of similar items can be added together and the total can be printed out
	<b>Weighing units</b> Can be switched to e.g. nonmetric units. Please refer to website for more details
	<b>Weighing with tolerance range</b> (Check weighing) Upper and lower limiting can be programmed individually, e.g. for sorting and dosing. The process is supported by an audible or visual signal, see the relevant model
	<b>ZERO</b> Resets the display to "0"
	<b>Hold function</b> When patients do not stand, sit or lie completely still, a stable weight is calculated using an average weight
	<b>Hold function</b> When the weighing conditions are unstable, a stable weight is calculated as an average value
	<b>Protection against dust and water splashes IPxx</b> The type of protection is shown in the pictogram cf. DIN EN 60529:2000-09, IEC0529:1989+A1:1999 +A2:2013

	<b>Suspended weighing</b> Load support with hook on the underside of the balance
	<b>Battery operation</b> Ready for battery operation. The battery type is specified for each device
	<b>Battery operation rechargeable</b> Prepared for a rechargeable battery operation
	<b>Rechargeable battery pack</b> Rechargeable set
	<b>Universal plug-in power supply</b> with universal input and optional input socket adapters for A) EU, CH B) EU, CH, GB, US C) EU, CH, GB, US, AUS
	<b>Plug-in power supply</b> 230V/50Hz in standard version for EU. On request GB, AUS or US version available
	<b>Integrated power supply unit</b> Integrated in balance. 230V/50Hz standard EU. More standards e.g. GB, AUS or US on request
	<b>Weighing principle Strain gauges</b> Electrical resistor on an elastic deforming body
	<b>Peak hold function</b> capturing a peak value within a measuring process
	<b>Push and Pull</b> the measuring device can capture tension and compression forces
	<b>Integrated scale</b> In the eyepiece
	<b>360° rotatable microscope head</b>
	<b>Monocular Microscope</b> For the inspection with one eye

	<b>Binocular Microscope</b> For the inspection with both eyes
	<b>Trinocular Microscope</b> For the inspection with both eyes and the additional option for the connection of a camera
	<b>Abbe Condenser</b> With high numerical aperture for the concentration and the focusing of light
	<b>Halogen illumination</b> For pictures bright and rich in contrast
	<b>LED illumination</b> Cold, energy-saving and especially long-life illumination
	<b>Fluorescence illumination for compound microscopes</b> With 100 W mercury lamp and filter
	<b>Fluorescence illumination for compound microscopes</b> With 3 W LED illumination and filter
	<b>Phase contrast unit</b> For a higher contrast
	<b>Darkfield condenser/unit</b> For a higher contrast due to indirect illumination
	<b>Polarising unit</b> To polarise the light
	<b>Infinity system</b> Infinity corrected optical system
	<b>Automatic temperature compensation</b> For measurements between 10 °C and 30 °C
	<b>Conformity assessment</b> The time required for conformity assessment is specified in the pictogram
	<b>Package shipment</b> The time required for internal shipping preparations is shown in days in the pictogram
	<b>Pallet shipment</b> The time required for internal shipping preparations is shown in days in the pictogram
