Pego emergency call unit with switch ECP-APE-03 personal alarm

Order No.: 296.2407

Manufacturer: Pego

Description

Emergency call unit with push button switch. This security system activates a visual and acoustic alarm mounted outside of a cold storage area in the event that a person becomes trapped inside. The system is designed with a backup battery outside of the storage room so that it will continue to function even in the event of a power failure.

The system consists of the following:

- Emergency switch unit for inside the cold storage area:

Consisting of an illuminated push button with NC connection. The LEDs in the emergency push button are permanently illuminated so that they are visible in the dark.

- Light and siren alarm distribution box for the area outside the cold storage room.

This consists of a siren, a flashing light to signal an alarm and a backup battery in case of power failure. Provision is made for an additional connected (covered but active) in order to attach additional safety equipment such as an automatic telephone signal or additional alarm sirens.

The alarm set "Person in cold storage area" consists of:

- Alarm distribution box with light, siren alarm and backup battery
- 3x safety sealing rings that are placed between the mounting bolts and base of the box
- Illuminated emergency button inside the cold storage room
- Instruction manual and maintenance
