

## Blender with sound enclosure

230688

This blender can prepare anything: fruits, vegetables, cocktails, smoothies, desserts and even crushed ice. Replaceable stainless steel blades with titanium coating. Manual control panel power setting knob and a pulse switch. Noise cover made of polycarbonate, the blender only works when the cover is completely closed. Comes with 2,5L break-resistant polycarbonate jug, firm lid made of polypropylene and a small polycarbonate lid cover. Detachable jug can withstand temperatures of -40°C up to 90°C. Hi-speed motor with variable speed and pulse function drives the blades from 16000 RPM up to 24800 RPM (without load). Equipped with over-heat and over-current protection.

### Specifications

|                    |                                                                                |
|--------------------|--------------------------------------------------------------------------------|
| Voltage            | : 230                                                                          |
| Electrician needed | : No                                                                           |
